

Complete 15 of these home learning activities this half term to receive a postcard home! (All 10 red and 5 black)

Activities in red are essential and <u>must</u> be completed.

Read a book about Europe or North America (recorded in reading record).	Practice quarter, half and full turns clockwise and anticlockwise. How quickly can you move from one to another?	Science: try a toy car (or anything with wheels) on some different surfaces to the ones we've tried in class. Are you making it a fair test?	Geography: Can you try drawing a map of Europe yourself? (feel free to copy from a book or a website, but no tracing please!)
Read your school reading book to an adult (recorded in reading record).	Create a tally chart for the colours of cars you see driving past, either from your window, or out somewhere.	DT: Can you create a design for a pneumatic toy that's different to your one in DT (wait until we've done this!)	PE: set up your own sports day activities for a family member(s) to take part in.
Read to a friend (recorded in reading record).	Get at least 8 correct in a challenge to Miss Moore on Times Tables Rockstars.	Computing: spend some time on Scratch and see how many different movements you can make a sprite do.	PSHE: make a poster about the difference between secrets and surprises.
Read back through your reading record to see how many books you've read in year 3. How many have you read?	Choose an end of topic maths assessment to complete again (get it from Miss Moore). Do you still know everything? What do you need to improve on?	English: create your own news report (either a script or film it!) about anything you like.	Music: can you try and make your own instrument using recycled materials, based on the traditional instruments you've been learning about.
Read any book you like! (recorded in reading record).	Complete the arithmetic challenge given to you by Miss Moore.	RE: write a paragraph about a time where you shared with someone else. Explain why sharing is so important.	End of year 3: write about the three things you've enjoyed the most in year 3 and four things you're looking forward to about year 4.
